Austin –

Thanks for chatting earlier. Below is information for the two events. We would request get EPA representatives attend both of these events to convey EPA's role in the response to the ITC fire, leak and subsequent cleanup. As I mentioned Congresswoman Garcia will be hosting the event on the 24th. These will be great opportunities for the community to hear about the work the agency has been doing.

I'm also including Claudia and Yuroba from our district office on this email.

Thanks,

Pat
